

# TECHNICAL DATA SHEET

**Product Name:** Glycerol Ester of Gum Rosin

**Origin:** China

Item	CGGER-85L	CGGER-85
Color ( Gardner )	1-2	2-4
Softening point (R & B) (°)	90± 5	90± 5
Acid Value (mg KOH/g)	10 max	10 max.

**Description:** Glycerol Ester is the ester of gum rosin with glycerol, having a high softening point. It is prepared from Gum Rosin or refining of Gum Rosin through the process of esterification with glycerol. It is very clear in colour, and the specification on the gardner scale can be made to instructed levels; as low as 1 (Water white).

**Application:** It is mainly used in pressure sensitive adhesives, hot melt adhesives, coatings, etc. Widely used for manufacture of book binding gums and is very clear in colour.

**Packing:** Granules or flakes, packed in intertexture or kraft paper bags, 25kgs net each bag.  
Pallets can be provided during shipment as per requirement.
